

PDBP Publications Policy

Publications Utilizing NINDS Parkinson's Disease Biomarkers Program Data and Specimens

It is expected that investigators with access to NINDS Parkinson's Disease Biomarkers Program (PDBP) data will seek to publish and present study related scientific reports. If PDBP data and/or biospecimens are used in the analyses or publications, as part of the Data Use Agreement, investigators will be asked to agree to a Publication Policy as follows:

- All manuscripts using PDBP data and/or biospecimens will acknowledge the NINDS PDBP Consortium as specified in the Data Use Agreement.
- All manuscripts will acknowledge support of the National Institute of Neurological Disorders and Stroke (NINDS) in the collection of data and (if relevant) biospecimens used in this study.

In addition to the named authors, all manuscripts will be submitted with an acknowledgement of the NINDS Parkinson's Disease Biomarkers Program Consortium on the author line followed by an asterisk (see Data Use Agreement). The asterisk will point to a printed listing (if allowed by the journal) or a web site listing of the names of the PDBP Consortium Investigators. The web listing for NINDS Parkinson's Disease Biomarkers Program Consortium investigators can be found at the following link -

<https://pdbp.ninds.nih.gov/assets/PDBP%20investigator%20list.pdf>

Full citation of all published manuscripts will be provided to the PDBP upon acceptance of manuscripts. A copy of the manuscript will be provided to the PDBP Data Management Resource (DMR) upon publication of the manuscript.
